About us

Deffren Machine Tool Service Inc. dba AKRO Tool Company is comprised of 3 divisions to meet your needs – a manufacturing job shop (AKRO Tool Company), a welding/fabricating shop (AKRO Tool Company) and the CNC machine tool service and repair division (Deffren Machine Tool Service Inc.). Deffren Machine Tool Service Inc. dba AKRO Tool Company, located in Fairfield, Ohio is your industrial machine shop for superior prototype work and small job runs, CNC machine repairs and custom welding/fabrications. We are able to handle any of your machining and engineering needs from tooling and fixtures to weldments and frame works. We have the capability to perform jobs that are production runs as well as one of a kind or smaller jobs.

Our facility is currently 10,000 square feet with plans to expand this by adding an additional 6,000 square feet. Presently, we employ a total of 12. This includes the travelling support staff, machinists and welders.

We are able to pick up and deliver parts locally as needed. We have outstanding relationships with various vendors which allows us to obtain the best price for you when outside processing is necessary.
